

Xu Cai (■■■)

PhD Student · Computer Network Information Center, Chinese Academy of Sciences

shaohuacongwen@gmail.com · github.com/shcw0405 · linkedin.com/in/shcw · caixu.me/research_cv

Research Interests

Responsible AI, LLM Unlearning, Recommender Systems, Trustworthy Machine Learning

Education

Ph.D. in Computer Science

Sep 2024 – Present

Computer Network Information Center (CNIC), Chinese Academy of Sciences · Beijing

- Advisor: Prof. Hengshu Zhu (CNIC Data Science Lab, CNIC-DSL)
- Research focus: Responsible AI, LLM Unlearning

B.S. in Computer Science

Sep 2022 – Jun 2026
(Expected)

Jilin University · Changchun

- Tang Aoqing Honors Program in Science (■■■■■■■■■)
- School of Computer Science and Technology
- Expected graduation: Jun 2026

Publications

[1] Y. Shao, P. Zhou, S. Wang, W. Zhang, **X. Cai**, S. Kim.

DTRec: Learning Dynamic Reasoning Trajectories for Sequential Recommendation.

arXiv preprint arXiv:2512.14036, 2025.

[2] Y. Shao, **X. Cai**, F. Gu, X. Li.

Negative Samples Selection Can Improve Graph Contrastive Learning in Collaborative Filtering.

International Conference on Intelligent Computing (ICIC), pp. 456–467, Springer, 2024.

Skills & Tools

Languages

Python, C/C++, JavaScript

ML / DL

PyTorch, Hugging Face Transformers, scikit-learn

Tools

Git, Linux, LaTeX, Docker
